Improving Lives

“Just five years ago, our son, Damian, could not have gotten near any activity where there were many people or a lot of noise,” said Jim Miele, Damian’s father. “The socialization programs at The Amazing Kids Club have since made all the difference in the world. The change has been incredible to watch and has been life-changing for our family.”

- Jim Miele, parent

“Todd and I are very happy with Michelle’s (therapist) services. Garrett has shown great improvement at school and at home and we can only attribute it to Michelle’s sessions with him every Wednesday. Without her I do not believe Garrett would be doing so well with his behavior. His teachers have remarked how he is concentrating better and submitting better classwork. We thank you from the bottom of our hearts.”

- Todd and Trish Cathell, parents

Help Us Help Others

There is a growing need for expanded Autism Services in our community:

According to the PA Bureau of Autism Services, there has been a 181% increase statewide of individuals diagnosed with Autism Spectrum Disorder, with Adams County experiencing a 236% increase and York County experiencing a 150% increase.

The Bureau also reports that the cost of lifelong care can be reduced by 2/3 with early diagnosis and intervention programs, which is what The Amazing Kids Club provides.
Until All the Pieces Fit
You can make your mark on the NEW Amazing Kids Club at Westminster Avenue by investing in a personalized pavement paver and/or original artwork created by our clients. Clients and visitors will walk into the new 24,000-square-foot Center knowing that the community cares about bettering the lives of those with autism.

For individuals with an Autism Spectrum Disorder, specially-designed environments can help reduce sensory stimuli and minimize unnecessary stress. Ample space, modified lighting, and intentionally planned rooms allow the children and adolescents the opportunity to focus better, learn new skills more effectively, and achieve better treatment outcomes.

Providing TrueNorth Wellness Services with the ability to design and control the environment from the “ground up” will allow for new, more advanced therapeutic practices and exposure to settings similar to those in real life (ground level environment with windows, large open spaces, outdoors), as well as:

★ Double our current capacity to 24,000-square-feet
★ Provide safe and easy pick-up and drop-off (current drop-off is an alleyway in downtown Hanover)
★ Offer abundant parking for parents, staff and visitors (current location has metered parking)
★ Contain an outdoor play space (none at current location)
★ Allow for additional play therapy areas
★ Provide additional staff offices

Support Creative Outlets
Some of our clients use art as therapy, a way to communicate their feelings or just to have fun. You now have the opportunity to sponsor artwork created by our clients that will be featured in the new Center. Each randomly-sponsored artwork is $150, and will be framed and include a plaque engraved with your name.

Below are a few examples of the masterpieces that will be displayed at the NEW Autism Center:
